

Web Sensor - remote thermometer hygrometer barometer with Ethernet interface

code: T7510

Ambient temperature, relative humidity, atmospheric pressure t-line Web sensor. Remote alarm.

Web Sensor with built-in temperature, relative humidity and atmospheric pressure sensors. One of the best barometers. Weather sensor for environment monitoring.

High precision capacitive polymer sensor ensures excellent long term calibration stability and ultimate accuracy. Dual line LCD is an advantage. Measured values are also converted to other humidity interpretation: dew point temperature, absolute humidity, specific humidity, mixing ratio and specific enthalpy.
